Accounts Payable  
Accounts Receivable  
Bank Reconciliation  
Crystal Reports  
Custom Office  
General Ledger  
Library Master  
Purchase Order  
Visual Integrator

**MAS 90 with Visual Integrator is the “One” for Arkansas One - Call and ARKUPS.**

The Arkansas One-Call Center was established in 1978 in Central Arkansas and expanded state-wide in 1981. It was created to provide an easy way for excavators to notify multiple utilities before digging with just one free phone call. Arkansas Utility Protection Services, Inc. (ARKUPS) was created in November 1998, as a nonprofit corporation owned by Arkansas One - Call System, Inc. The ARKUPS team includes over 100 Damage Prevention Specialists providing statewide service to their partners. When Arkansas One - Call contacted Software Solutions they were using Peachtree for their accounting system and looking for a more robust business management software program to increase efficiencies in their operations and provide integration with their billing and timekeeping systems. Using the Data Migrator and Visual Integrator, Software Solutions worked with Patti Stobaugh, Arkansas One - Call Business Manager, to quickly set up and configure MAS 90 for training and an accelerated implementation. With continued consulting services, Software Solutions scripted import jobs in Visual Integrator to import data from ARKUPS custom timekeeping program to MAS 90 payroll, from the call tracking system to Accounts Receivable data entry for billing, and from a fleet management system to MAS 90

**“We are very pleased with MAS 90 and the amount of time we are saving with Visual Integrator”**  
**-Patti Stobaugh**

**Dig Safely**  
Call before you dig.  
Wait 2 working days.  
Respect the marks.  
Dig with care.

Purchase Order. They also imported data from their damage investigation system (DIS) into MAS 90. “We are very pleased with MAS 90 and the amount of time we are saving with Visual Integrator,” says Patti Stobaugh. “We have eliminated so much data entry and freed up time to move human resource management work from my desk to other administrative personnel !”
