Dear <<Contact>>:

Payroll doesn't have to be a complex and time consuming task. Sage MAS offers solutions that can save you time and money no matter how you want to do your payroll.

In-house solutions that simplify your daily operations.

Payroll Module

Get easy in-house payroll preparation at a fraction of the cost and time a manual payroll system might take with the Sage MAS 90 and 200 Payroll Module. It applies earnings and deductions, automatically calculates employee and employer payroll taxes, and prints checks and vouchers complete with year-to-date earnings and tax information. Plus, the reporting capability provides high-level, insightful business data regarding employee deployment and costs...enhancing your ability to make timely business decisions.

Direct Deposit

Now you can offer your employees the convenience and security of Sage MAS 90 and 200 Direct Deposit. This Extended Solution automatically deposits your employees' paychecks into the bank account(s) they specify. Increase employee satisfaction and reduce the time you spend printing and signing checks. Direct Deposit for Payroll not only helps reduce your daily tasks, it also allows you more control over your check processing costs by saving up to \$1.25 per check.

Full service payroll solutions offer you the easiest way to handle payroll.

Sage Payroll Services – MAS Edition can boost efficiency, reduce costs and help you better manage your payroll. How? Sage Payroll Services – MAS Edition integrates with your Sage MAS 90 or 200 system, simplifying the information exchange between your general ledger and bank account. Easy data transfers save time and improve accuracy, because you no longer have to manually re-enter information. With Sage Payroll Services, you will enjoy:

- Hassle-free paydays with no hidden costs
- Reduced risk of payroll errors and a penalty-free guarantee
- Access to your payroll anytime from any computer
